GROWTH & PERFORMANCE MARKETING MANAGER

DTC, eCommerce and telehealth · 8+ years in-house across health, consumer tech and appliances

Growth marketer who runs paid media hands-on and owns the numbers behind it, from CAC to retention. At Genecis I personally own about **US$90K a month of Meta spend** and Folly's retention lifecycle, where active subscriptions have grown **4x since May**, and I build the **AI workflows** that tripled the team's creative output and replaced a US$8K-a-month copywriter. At CircleDNA I cut **CAC 37%** and grew **contribution margin 104%** on a budget cut 26%. At Kuvings I grew online sales **5x in a year**.

KEY RESULTS

US$540K
Meta budget personally owned, Folly and Melt, May to Nov 2026

EXPERIENCE

Growth Marketing Manager

MAY 2026 – PRESENT

Genecis · Parent of Folly Nutrition, Journi Health (Melt) and early-access telehealth brands, US market

- Own growth and retention for a **portfolio of US DTC and telehealth brands**: Folly Nutrition (Shopify, Skio, Klaviyo), Melt (prescription GLP-1 chocolate sold through a WooCommerce telehealth funnel) and five early-access brands. Accountable to the CEO for all revenue, measured on CAC and retention.
- Personally own a **Meta budget of about US$90K a month** (US$540K+ since May) against a $180 CPA target. Audited Folly's account in June (US$118K spend, $285 CPA), cut daily spend about 75% and set CPA caps.
- Own Folly's **retention lifecycle**: Klaviyo flows and segments, Skio cancel flow, dunning and winbacks. Active subscriptions grew **4x, from about 460 to 1,887**, on US$643K of subscription revenue since May; month-3 retention rose from 26 to 30% for pre-May cohorts to 58 to 70%, and cohort LTV from about $50 to $180.
- Launched **Melt, the world's first GLP-1 chocolate**, in October 2026: a $10-deposit pre-launch (392 deposits at about $195), LegitScript and Meta prescription-drug approval, then a one-month rebuild of the PDP, 47-state checkout, qualification quiz and $189 subscription, with 12 orders in the first four days.
- Launched **five early-access telehealth brands in one week** (VOLT, GRIT, rooted, estelle, ember), each with its own landing page, email strategy and ad strategy, using the AI workflows below.
- Replaced **2 hours a day of manual reporting** with AI: the daily CEO report and Folly morning brief now post to Slack automatically from Shopify, Meta, Google, GA4 and Skio, and flag winning and losing creative and any campaign trending down every morning.
- Built the **shared Claude skill set and plugin** the CEO, head of marketing and creative team work from: static ad output rose from about **50 to 100 to 200 a week**, every ad passes a Meta, FTC and LegitScript compliance gate before production, and it **replaced a US$8,000-a-month copywriter**, with one consistent standard of output across the team.

Marketing Manager, CircleDNA and IM8

NOV 2023 – MAY 2026

Prenetics Limited · DTC consumer genetics and supplements, global

- Owned paid acquisition across **Meta, Google and TikTok** for SEA, EU, MENA, US, UK and Australia, plus affiliate, influencer and Klaviyo CRM. Revenue across D2C and B2B exceeded **HKD 65M**.
- Cut **CAC 37%** and grew **contribution margin 104% YoY** by moving budget to the channels and creatives with the best payback, while total marketing spend fell 26%. Delivered **US$3.39M in CM2** by October 2024 against a US$4M group target.
- Restored Meta advertising after a medical-advertiser restriction with a **domain aliasing fix**, protecting an estimated 30 to 40% of revenue.
- Led a **10-person team** across brand, performance, content, CRM and partnerships; launched the brand in MENA through creator and affiliate programs; led the Shopify migration.
- Rebuilt the Klaviyo lifecycle calendar (email clicks up 179.5%, open rate up 15.4%) and built AI agents for SEO content, social listening and reporting.
- Supported the launch of **IM8**, Prenetics' supplement brand co-founded with David Beckham: planned its first **BFCM campaign**, sourced influencers and ran marketing initiatives alongside the CircleDNA role.

E-commerce & Digital Marketing Manager

AUG 2020 – NOV 2023

Kuvings Sdn Bhd · Premium juicers and the Reencle composter, Malaysia

- Personally managed **five to six figure monthly ad budgets** across Meta and Google, holding 5x to 6x ROAS over three years. Reported directly to the CEO.
- Grew online sales **5x in one year**, from RM1M in 2020 to RM5M in 2021, across Shopify, Shopee Mall and LazMall; brand.com sales up 34% YoY in 2023.
- Ran over **60 campaigns** in three years. Launches: EVO700 at 13x ROAS and 216 units in launch month, REVO830 at 9x, Reencle pre-order at 7x to 8x and RM150K+ in sales, Kuvings x Backley at 7x.
- Ran the Shopify store day to day: product updates, promotions, order flow, newsletter and social content for launches and festive campaigns.

Growth Marketing Manager

Nexus Mediaworks International · Agency, Malaysia

MAR 2020 – JUL 2020

- Managed a team of five running Meta, Instagram and PPC campaigns for clients on packages above RM100K a year, with monthly performance reporting.
- Led cross-department kick-offs and post-project reviews; trained new sales staff on SEO and PPC.

Performance Marketing Intern

Fave by Groupon · Malaysia, Singapore, Indonesia

JAN 2017 – APR 2017

- Ran Meta and Google campaigns on five figure monthly budgets during the Groupon migration, as monthly business grew from a few thousand to over 700 thousand dollars and MAU from under 1K to about 22K.

Marketing & HR Manager

Daboba Sunway Giza · Retail F&B outlet

AUG 2019 – MAR 2022

- Planned local campaigns, events and brand collaborations (Shopee Malaysia, World of Buzz, Vase Creations) with Daboba HQ; managed outlet HR admin.
